Full-stack engineer who ships products end to end: backend, AI agents, infra and mobile. Co-founder & CTO at DynoWeb and Deksie, CTO at Kaafila; built Karmyug AI alone (8,000+ users in 4 days); run Yantratools (62K+ customers).

Education

- **RCC Institute of Information Technology (RCCIT)**

Bachelor in Technology (Computer Science and Engineering (AI.ML)); CGPA: 8.23

Kolkata, India
July 2023 – Present
- **JASHORAJPUR SRINATH CHARAN VIDYAYATAN**

Higher Secondary (stream: science) ; Percentage : 91%

Paschim Medinipur, India
Dec 2021 – Dec 2023

Experience

- **DYNOWEB**

Co-founder & CTO

Remote , Dubai
Feb 2026 – Present

- Lead engineering on an AI conversion app for Shopify on 74 stores; wrote ~70% of 3,000 commits, 150 releases in 5 months.
 - Built click tracking (1.3M+ events/month), revenue attribution and DynoAgent, a Gemini tool-calling agent with approval and undo.
 - Built canary deploys with auto-rollback on Cloud Run; cut stale revisions (67% of its bill) and the registry from 127 GiB to 35 GB.
 - Tech Stack:** TypeScript, React Router, Prisma, Postgres, GCP, Gemini, GitHub Actions.
- **DEKSIE (CTRLZED)**

Co-founder & CTO

Remote
Dec 2025 – Present

- Built most of an agency ops SaaS (CRM, projects, contracts, finance, AI): ~83% of 1,361 commits; a Go API with 598 routes.
 - Designed a money-safe finance module (idempotent payments, reversal rows, derived balances) and an AI assistant on read-only SQL views.
 - Led security hardening: fail-closed RBAC, SQL injection and cross-tenant fixes; a 249-finding audit fixed in 14 PRs.
 - Tech Stack:** Go, Echo, GORM, Postgres, Next.js 16, React 19, Vertex AI.
- **KARMYUG AI**

Full stack engineer (freelance, sole engineer)

Remote , India
Sep 2026 – Oct 2026

- Built an AI training-data platform alone in ~4 weeks: site, worker PWA, admin, NestJS API (200+ routes), audio QC, KYC and payouts.
 - 8,000+ workers signed up in about 4 days; load-tested 80 concurrent recorders (1,807 recordings in 90 s, 0 errors).
 - Moved the live platform (~4,000 users) from Supabase and Vercel to GCP Cloud Run and Cloud SQL with no data lost.
 - Tech Stack:** Next.js, NestJS, Prisma, Postgres, GCP, Python, faster-whisper.
- **YANTRATOOLS**

Platform engineer (freelance)

Remote , India
Sep 2026 – Present

- Run a tools marketplace with 62K+ customers; built the whole seller side: Angular portal, 100+ API routes and an Expo Android app.
 - Added verified backups with restore drills and CI/CD for 4 apps with self-reverting health checks.
 - Tech Stack:** Node.js, Express, MongoDB, Angular, Expo, AWS.
- **KAAFILA**

CTO (equity)

Remote , India
Oct 2026 – Present

- Lead the tech for a group-travel marketplace: NestJS API, React web, Expo iOS/Android app and a Gemini voice assistant for trip plans.
 - Tech Stack:** NestJS, Drizzle, Supabase, React, Expo, Gemini.
- **FLUXMAP**

Full stack developer

Remote , Dubai
Oct 2025 – Nov 2025

- Built the site frontend, backend and CI/CD; cleaned up 90K PII records in production with zero downtime (Next.js, NestJS, Postgres).
- **LINEUPX**

Frontend developer

Remote , India
May 2025 – Oct 2025

- Built pixel-perfect frontend features from Figma and wired them to the backend (TypeScript, Next.js, Tailwind CSS).
- **LASTMINUTEENGINEERING**

Lead developer/Co-founder

Kolkata, India
May 2024 - Present

- Grew an AI study platform to 11K+ active users and 1M+ page views, with 5K+ YouTube subscribers and 3K+ WhatsApp channel members.
 - Built the platform and its AI features (notes, videos, practice questions), lifting user engagement by 20%.
 - Tech Stack:** TypeScript, Next.js, Firebase, Node.js, Tailwind CSS, Groq LLM.

Skills Summary

- **Languages:** JavaScript, TypeScript, Go, Python, SQL, C, C++
- **Frameworks:** React, Next.js, Angular, Node.js, NestJS, Express, Echo (Go), Prisma, Drizzle, Tailwind CSS, Expo, Vercel AI SDK, LangChain.
- **Cloud and Tools:** GCP (Cloud Run, Cloud SQL, CDN), AWS (EC2, S3), Vercel, Firebase, Supabase, Docker, GitHub Actions, Sentry.
- **AI and Data:** Tool-calling agents, MCP servers, Gemini / Vertex AI, RAG; PostgreSQL, MongoDB, MySQL, SQLite.

Honors / Achievements

- **100agentdev winners** : IntelliSupply, an AI supply-chain agent system, won this international hackathon over 600 teams. [Demo](#)
- **HACKFEST 1ST Runner Up** : Secured 2nd position in this hackathon organized by **IIT Dhanbad**.
- **5,371 GitHub contributions** in the last 12 months.
- **NSS Web dev Lead** : Manage college NSS website.
